

# 22<sup>nd</sup> ANNUAL PQSYNERGY™

International Conference & Exhibition

2024

SEPT 24<sup>TH</sup> – 25<sup>TH</sup>

Bangkok, Thailand

For 22 years, this conference has been recognized as an international forum to share experiences, information, requirements, problems and solutions on the state of the art for Power Quality, Energy Efficiency and Smart Grid. PQSynergy™ is an excellent networking opportunity in an informal atmosphere with presentations from around the world

## CONFERENCE SCHEDULE

Abstract Submission: Monday August 5<sup>th</sup>  
Notification of Acceptance: Monday August 12<sup>th</sup>  
Final Full Paper Submission: Monday August 19<sup>th</sup>

## SCOPE OF PAPER

- Power Quality Monitoring and Solutions
- Smart Grid
- Energy Conservation and Management
- Compatibility & Compliance
- Electric Vehicle & EV Charging Station

Utilities will share their experiences in the area of power quality

Large power users will share their present and future expectations for power quality

Equipment suppliers will share their overall market perspective and their specific solutions for power quality problems

*All papers will be published on PQBlog  
[www.powerquality.blog](http://www.powerquality.blog)*

## CONFERENCE PROGRAM

### Tuesday September 24<sup>th</sup>: Power Quality

Power Quality day with special focus on new sources of PQ data for electrical distribution networks (Smart meters with PQ, Low Voltage transformer monitoring, substation monitoring), impact of Smart Grid and IEC61850 & digital relays.

### Wednesday September 25<sup>th</sup>: Energy Efficiency & Renewable Energy (morning session)

Energy Efficiency day with special focus on energy losses in the electrical distribution network, conservative energy technology and solution, renewable generation (solar, wind, biofuels) and the impact on electricity supply.

### Wednesday September 25<sup>th</sup>: Electric Vehicles & Impact on the Quality of Supply from the Utility (afternoon session)

While the electric vehicle (EV) market has accelerated significantly and EV infrastructure continues to grow, there are still a number of important challenges to address.

**\*\*Note: Sponsor/exhibitor and speaker can also bring one participant to attend the conference with FREE of charge**
